# RRopen K8 Pro

| | |
|---|---|
| Brief Introduction<br>Beta 2.5 | A quick look at the K8 Pro: The RRopen LED LCD projector offers 1,800 ANSI lumens and an HDTV resolution of 1920 x 1080. Thanks to its LED technology, the projector has a rated lifespan of 30,000 hours?which equates to over 20.5 years if used for four hours a day. Horizontal and vertical keystone correction allows for great flexibility in setting up the projector. An image width of up to 431 cm is possible. However, in well-lit rooms, the image should be set to a smaller size. We recommend a maximum of 287 cm. Since the projector supports AirPlay and Miracast screen mirroring, it?s possible to stream high-resolution videos with surround sound directly from a smartphone, tablet, or PC (Android, Windows, and iOS) via Wi-Fi. In addition, thanks to its Bluetooth functionality, the projector can be easily paired with other speakers. Furthermore, the projector can play 1080p and 4K (compressed) without any issues. |
