

Sharp XP721Q-W

SHARP XP721Q-W

Brief introduction to the Sharp XP721Q-W. The DLP laser projector has HDTV 1920 x 1080 resolution and a contrast ratio of 3000000:1. It is a laser projector with a light life of 30,000 hours, which is over 20.5 years when used for four hours a day. The projector also offers a lens shift function for flexible projection adjustment without any loss of quality. An image width of up to 862 cm is possible; if the image width is smaller (we recommend max. 575 cm), even rooms with residual light are no problem. Furthermore, the projector can play 1080P and 4K (compressed) without any problems. Even projection onto the ceiling is possible thanks to the 360° projection.
