# SVIC S350

Brief Introduction
Beta 2.5

A brief introduction to the SVIC S350. The standard portable LCD projector has a VGA 640 x 480 resolution and a contrast of 800:1. The lamp life is up to 6000 hours, which is over 8.2 years if enjoyed for two hours a day. As SVIC specifies the brightness of the projector in lumens, we have calculated an approximate ansi-lumen value in this case. An image width of up to 95 cm is possible, as the projector has 120 Ansi lumens. However, if room light is available, the image should be a maximum of 63 cm wide. The projector is very quiet compared to others with 28 decibels of operating noise. It is no longer offered by the manufacturer SVIC.
