SVIC S700

Brief Introduction Beta 2.5	The S700 LCD has 132 Ansi lumens, a contrast of 800:1 and a WVGA 800 x 480 resolution. The lamp in the projector is specified with a lamp life of 6000 hours, which is over 8.2 years if enjoyed for two hours every day. As SVIC specifies the brightness of the projector in lumens, we have calculated an approximate Ansi lumen value in this case. 132 Ansi lumens ensure that a picture width of 117 cm is also possible. However, if room light is available, the picture should be a maximum of 78 cm wide. The operating noise of only 28 decibels makes the projection quiet. This model is no longer offered by SVIC.
Display Type	LCD TFT Panel WVGA 16/9 Liquid Crystal Display
Projector Ansi-Lumen	132 2200 Lumen
Contrast	800:1 full on/off
Black Level	0,1650 min. Lumen
Offset	-
Screen Ansi-Lumen	59 Lux (200 cm Screen width)
Contrast	800:1 full on/off
