TAW Revolution

Brief Introduction Beta 2.5	The TAW Revolution model is a DLP projector with HDTV 1280 x 720 resolution and a contrast of 2700:1 - 3300:1. Includes a lens shift function, which provides freedom during installation. 1800 Ansi lumens ensure that a picture width of 431 cm is also possible. However, if room light is available, the picture should be a maximum of 287 cm wide. The operating noise of only 30 decibels makes the projection quiet. The model built in 2005 is no longer offered by TAW.
