

topeby W206

TOPEBY W206

The W206 LED LCD projector from topeby has 330 ANSI lumens, a contrast ratio of 10,000:1 and an HDTV resolution of 1920 x 1080. Thanks to the LEDs, the service life is 30,000 hours, which would equate to over 20.5 years at 4 hours use per day. As the projector features horizontal and vertical keystone correction, it can be set up with plenty of space around it in the room. Thanks to its short-throw projection ratio of just 0.8:1, the projector does not take up much space in the room. To project a 2-metre-wide image, the projector needs to be positioned just 160 cm from the screen. Thanks to the integrated Android TV software, it offers direct access to a wide range of streaming services such as Netflix, Disney+, Amazon Prime Video and YouTube, as well as games and other interactive content. As the projector recognises AirPlay and Miracast screen mirroring signals, it is possible to play videos in high resolution and with surround sound directly via Wi-Fi from a smartphone, tablet, PC (Android, Windows and iOS) directly via Wi-Fi in high resolution with surround sound. Another bonus worth mentioning is that the projector's Bluetooth function allows it to be connected to external wireless speakers. Furthermore, it is compatible with Full HD 1080p and 4K (compressed).

1 x LCD Panel
