TOPEBY W350

The Micro-Portable W350 LED LCD has 580 ANSI lumens, a contrast ratio of 1000:1 and an HDTV resolution of 1920 x 1080. It is an LED projector with a lamp life of 30,000 hours, which would equate to over 20.5 years if used for 4 hours a day. As the projector features horizontal and vertical keystone correction, it can be set up with plenty of space around it in the room. An image width of up to 245 cm is possible. However, in bright rooms, the image should be set to a smaller size. We recommend a maximum of 163 cm. As the projector recognises AirPlay and Miracast screen mirroring signals, it is possible to stream high-resolution videos with surround sound directly via Wi-Fi from a smartphone, tablet or PC (Android, Windows and iOS). Another useful feature is that the projector can be connected to external wireless speakers via its Bluetooth function. Even 1080p and 4K (compressed) video signals are no problem for the projector.
