TOPTRO TP1

Brief Introduction Beta 2.5	Manufacturer TOPTRO offers the TP1, an LCD LED projector with HDTV 1920 x 1080 resolution and a contrast ratio of 18000:1. It is an LED projector with a light life of 30,000 hours, which equates to over 20.5 years of enjoyment at four hours per day. It includes an integrated media player that allows files to be played directly. An image width of up to 249 cm is possible, as the projector has 600 ANSI lumens. However, if there is ambient light in the room, the image should be no more than 166 cm wide. The projector has Airplay and Miracast screen mirroring support, which allows high-resolution videos and surround sound to be played directly from smartphones, tablets, and PCs running Android, Windows, or iOS via Wi-Fi. In addition, thanks to the Bluetooth function, the projector can be flexibly paired with other speakers. Even 1080P and 4K (compressed) video signals are no problem for the projector.
