TransarJect T800

TRANSARJECT T800

Brief Introduction Beta 2.5	Manufacturer TransarJect offers the T800, a portable game LCD LED projector with HDTV 1920 x 1080 resolution and a contrast of 10000:1. It is an LED projector with a 30000-hour light lifespan, which is over 20.5 years at four hours of enjoyment per day. It includes an integrated media player that can be used to play files directly. Since the projector has horizontal and vertical keystone correction, it can be placed in the room with plenty of free space. The projector can illuminate up to 176 cm of image width well thanks to the 300 ANSI lumens. However, in a well-lit room, the image width should ideally be less than 117 cm. The projector has Airplay, Miracast Screen Mirroring support, which makes it possible to play videos in high resolution and surround sound from smartphones, tablets and PCs with Android, Windows or iOS directly via WLAN. In addition, thanks to the Bluetooth function, the projector can be flexibly connected to other speakers. Even video signals 1080P and 4K (compressed) are no problem for the projector. The operating noise of only 25 decibels makes projection quiet.
Display Type	1 x LCD TFT Panel HDTV 16/9 Liquid Crystal Display
Ansi-Lumen	Projector: 300 / Screen: 133 Lux (bei 200 cm Screen)
Contrast	Projector: 10000:1 / Screen: 10000:1
Black Level	Projector: 0,0300 min. Lumen / Screen: 0,013 min. Lumen
