VAMVO VF340

Brief Introduction Beta 2.5	The Vamvo VF340 LED LCD projector has 600 ANSI lumens, a contrast ratio of 5000:1, and an HDTV resolution of 1920 x 1080. The manufacturer specifies an LED lifespan of 30,000 hours, which equates to over 20.5 years of use at four hours per day. Thanks to horizontal and vertical keystone correction, the projector can be positioned with great flexibility. An image width of up to 144 cm is possible because the projector has 600 ANSI lumens. However, if there is ambient light in the room, the image should be no wider than 96 cm. The model supports AirPlay and Miracast screen mirroring, making it possible to stream high-resolution videos with surround sound directly over Wi-Fi from a smartphone, tablet, or PC (Android, Windows, and iOS). In addition, Bluetooth connectivity is a useful feature for the projector, particularly for wireless audio transmission. The projector also handles 1080p video signals with ease.
