Viewsonic M1S

VIEWSONIC M1S

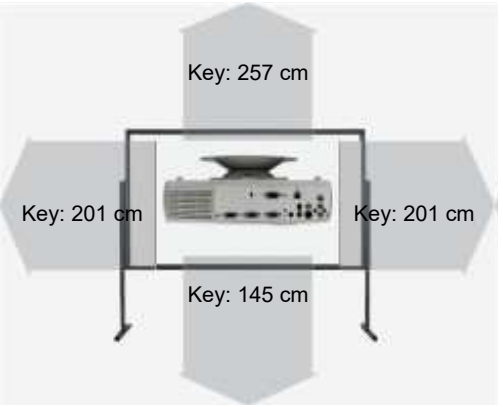

Brief Introduction Beta 2.5	With the M1S, manufacturer Viewsonic offers a game-portable DLP LED projector with WVGA 854 x 480 resolution and a contrast of 120000:1. The manufacturer specifies an LED service life of 60,000 hours, which is over 41.1 years with a daily viewing time of 4 hours. The integrated media player can play files directly. As the projector has horizontal and vertical keystone correction, the projector can be set up with plenty of free space in the room. Thanks to the brightness of 360 Ansi lumens, a picture width of 193 cm is possible. In room light, the image should be max. 129 cm wide. Thanks to the built-in 12000mAh (4000mAh 3.7Vx3) battery, no power supply is required, allowing the projector to be set up quickly and flexibly. The model recognizes Airplay, Miracast Screen Mirroring signals, so it is possible to play videos with high resolution and surround sound directly via WLAN from a smartphone, tablet or PC (Android, Windows and iOS). In addition, the Bluetooth option is a useful addition to the projector, especially for wireless audio transmission. It is also Full HD 1080P compatible and can therefore project Blu-rays even onto the ceiling thanks to 360° projection. With an operating noise of just 26 decibels, the model is already very quiet compared to others.
Display Type	1 x 0,2" DLP WVGA 16/9 Ti Digital Light Processing Chip
Ansi-Lumen	Projector: 360 / Screen: 160 Lux (bei 200 cm Screen)
Contrast	Projector: 120000:1 full on/off / Screen: 120000:1 full on/off
