Viewsonic M1XE

VIEWSONIC M1XE

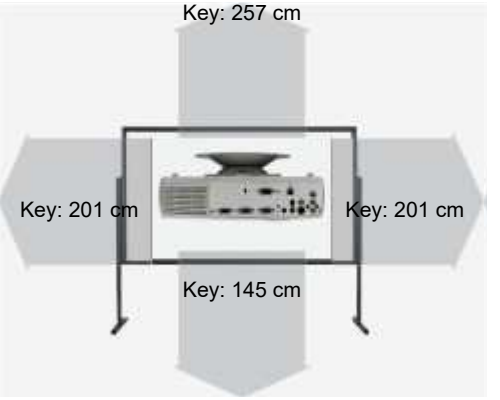

Brief Introduction Beta 2.5	The M1XE LED DLP has 360 ANSI lumens, a contrast ratio of 120,000: 1 and a WVGA resolution of 854 x 480. It is an LED projector with a lamp life of 60,000 hours, which would equate to over 41.1 years at 4 hours? use per day. Files can be played directly via the integrated media player. As the projector features horizontal and vertical keystone correction, it can be set up with plenty of space around it. 360 ANSI lumens ensure that an image width of 193 cm is possible. However, if there is ambient light in the room, the image should be no more than 129 cm wide. Thanks to the built-in 12,000 mAh (4,000 mAh 3.7 V x 3) battery, no external power supply is required, allowing the projector to be set up quickly and flexibly. As the projector recognises AirPlay, Miracast and screen mirroring signals, it is possible to play high-resolution videos with surround sound directly via Wi-Fi from a smartphone, tablet, PC (Android, Windows and iOS) directly via Wi-Fi. In addition, the Bluetooth capability is a useful addition to the projector, particularly for wireless audio transmission. The model is also Full HD 1080p compatible. Even projecting onto the ceiling is possible thanks to the 360? projection capability. Compared to other models, the projector is very quiet, with an operating noise level of 26 decibels.
Display Type	1 x 0,2" WVGA DLP Chip WVGA 16/9 Ti Digital Light Processing Chip
Ansi-Lumen	Projector: 360 / Screen: 160 Lux (200 cm Screen width)
