Vivitek H5180

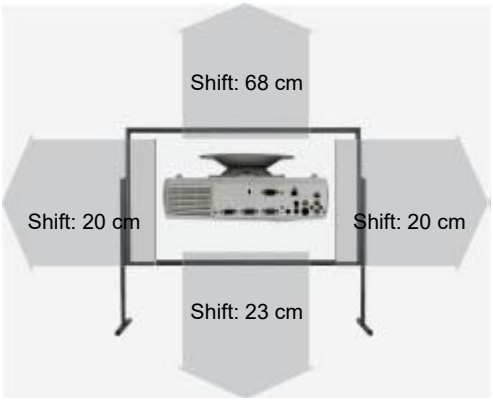

VIVITEK H5180

Brief Introduction Beta 2.5	The H5180 3D BrilliantColor DLP has 4500 Ansi lumens, a contrast of 3000:1 and an HDTV 1920 x 1080 resolution. With the lens shift function, the projector can be positioned very freely. The projector can illuminate images up to 682 cm wide thanks to its 4500 Ansi lumens. The projector can create rooms with residual light with a smaller image width, we recommend a maximum of 455 cm. If the image width is not sufficient, the projector offers integrated edge blending software, which allows several projectors to project a large image together. Even 1080P video signals are no problem for the projector. It was launched on the market in 2011 and is no longer offered by the manufacturer Vivitek.
