WeWatch WP01

Brief Introduction Beta 2.5	The standard portable WeWatch WP01 LED LCD projector has 800 ANSI lumens, a contrast ratio of 1500:1, and HDTV 1920 x 1080 resolution. Thanks to the LEDs, the projector has a light life of 30,000 hours, which is equivalent to over 20.5 years at 4 hours per day. Files can be played directly using the integrated media player. The brightness of 800 ANSI lumens allows for an image width of 287 cm. In room lighting, the image should be no more than 191 cm wide. The model recognizes DLNA, Airplay, and Miracast screen mirroring signals, making it possible to play high-resolution videos with surround sound directly via Wi-Fi from a smartphone, tablet, or PC (Android, Windows, and iOS). In addition, the Bluetooth function allows the projector to be flexibly paired with other speakers. Even 1080P video signals are no problem for the projector.
