# Wimius P60

| | |
|---|---|
| Brief Introduction<br>Beta 2.5 | With the P60, manufacturer Wimius offers an LCD LED projector with HDTV 1920 x 1080 resolution and a contrast of 15000:1. Due to the LEDs, the projector is specified with 30000 hours of light life, which is equivalent to over 20.5 years at 4 hours per day. The projector also offers an integrated media player that can be used to play files directly. Thanks to the horizontal and vertical keystone correction, the projector can be positioned very freely. The projector can illuminate a picture width of 227 cm well. However, if there is room light, the picture width should ideally not exceed 151 cm. As the projector recognizes DLNA, Airplay, Miracast Screen Mirroring signals, it is possible to play videos with a high resolution and surround sound directly from a smartphone, tablet, PC (Android, Windows and iOS) via WLAN. In addition, the Bluetooth option is a useful addition to the projector, especially for wireless audio transmission. Furthermore, the projector can play 1080P and 4K (compressed) without any problems. It was launched in 2022 and is no longer offered by the manufacturer Wimius. |
