

XENPONAD P7

EAN/UPC:B0FLDBW5G9

Brief Introduction

Beta 2.5

A brief introduction to the P7: The XENPONAD LED LCD projector offers 280 ANSI lumens, a contrast ratio of 1000:1 and an HDTV resolution of 1280 x 720. Thanks to the LEDs, the projector has a specified lamp life of 30,000 hours which equates to over 20.5 years based on four hours use per day. Horizontal and vertical keystone correction ensures that setting up the image is child's play. An image width of up to 321 cm is possible, as the projector has 280 ANSI lumens. However, if there is ambient light in the room, the image should be no more than 214 cm wide. Thanks to Google TV, the projector can be conveniently controlled via voice commands. As the projector recognises AirPlay, Miracast Screen Mirroring signals, it is possible to play high-resolution videos with surround sound directly from a smartphone, tablet or PC (Android, Windows and iOS) via Wi-Fi. Another bonus worth mentioning is that, thanks to the Bluetooth function, the projector can be connected to external wireless speakers. Even 1080p video signals are no problem for the projector.
