XGODY N7

EAN/UPC:B0H5KKQNCP

Brief Introduction

Beta 2.5

Brief introduction to the XGODY N7. The LCD LED projector has an HDTV resolution of 1920 x 1080 and a contrast ratio of 1500: 1. Thanks to the LEDs, the projector has a specified lamp life of 30,000 hours, which would equate to over 20.5 years based on 4 hours? viewing per day. A built-in horizontal and vertical keystone correction feature offers flexibility when setting up the projector. An image width of up to 227 cm is possible, as the projector has 1,000 ANSI lumens. However, if there is ambient light in the room, the image should be no more than 151 cm wide. The projector supports AirPlay and Miracast screen mirroring, enabling high-resolution videos and surround sound to be streamed directly via Wi-Fi from smartphones, tablets and PCs running Android, Windows or iOS. In addition, the Bluetooth capability is a useful addition to the projector, particularly for wireless audio transmission. Furthermore, the projector can play 1080p and 4K (compressed) content without any issues.
