

XUIGORT Mini Projektor

XUIGORT MINI PROJEKTOR

A brief introduction to the mini projector: The XUIGORT LED LCD projector offers 120 ANSI lumens, a contrast ratio of 800:1 and an HDTV resolution of 1280 x 720. Thanks to its LEDs, the projector has a lamp life of up to 30,000 hours ? which, at four hours? use per day, equates to over 20.5 years. As the projector features horizontal and vertical keystone correction, it can be positioned with plenty of space around it in the room. An image width of up to 103 cm is possible, as the projector has 120 ANSI lumens. However, if there is ambient light in the room, the image should be no more than 69 cm wide. The model recognises DLNA, AirPlay and Miracast screen mirroring signals, so it is possible to play high-resolution videos with surround sound directly via Wi-Fi from a smartphone, tablet or PC (Android, Windows and iOS). In addition, the Bluetooth capability is a useful addition to the projector, particularly for wireless audio transmission. The model is also Full HD 1080p compatible. With an operating noise level of just 29 decibels, the model is very quiet compared to others.
