YBAUA E28

The YBAUA model E28 is an LCD LED projector with HDTV 1920 x 1080 resolution and a contrast of 20000:1. The manufacturer states that the LED has a lifespan of 100,000 hours, which would be over 68.5 years with 4 hours of viewing per day. The projector also offers an integrated media player that can be used to play files directly. A built-in horizontal and vertical keystone correction provides freedom when setting up the projector. An image width of up to 287 cm is possible because the projector has 800 ANSI lumens. However, if room light is present, the image should be a maximum of 191 cm wide. The battery projector does not require a direct power source and can therefore be set up very quickly, freely and spontaneously. The projector has Airplay, Miracast Screen Mirroring support, which allows high-resolution video and surround sound from smartphones, tablets and PCs running Android, Windows or iOS to be played directly over Wi-Fi. In addition, the projector can be flexibly connected to other speakers thanks to the Bluetooth function. Furthermore, it is Full HD 1080P and 4K (compressed) compatible.

Brief Introduction Beta 2.5		
Display Type	1 x LCD TFT Panel HDTV 16/9 Liquid Crystal Display	
Ansi-Lumen	Projector: 800	Screen: 356 Lux (200 cm Screen width)
