

YGSKK Mini Projector

Brief Introduction

Beta 2.5

The Game-Portable YGSKK Mini Projector LED Beamer has 300 ANSI lumens, a contrast ratio of 10000:1, and HDTV 1920 x 1080 resolution. The manufacturer specifies an LED lifetime of 30,000 hours, which would be over 20.5 years if viewed for 4 hours a day. Since the projector has horizontal and vertical keystone correction, it can be set up with plenty of space in the room. 300 ANSI lumens ensure that an image width of 176 cm is also possible. However, if there is ambient light in the room, the image should be no more than 117 cm wide. The model recognizes Airplay and Miracast screen mirroring signals, making it possible to play high-resolution videos with surround sound directly via Wi-Fi from a smartphone, tablet, or PC (Android, Windows, and iOS). Another extra feature worth mentioning is that the projector can be connected to external wireless speakers via Bluetooth. The projector can also play 1080P and 4K (compressed) content without any problems.
